European Journal of Operational Research 64 (1992) 464–465
North-Holland

Contents Volume 64

1 Editorial
2 Economic and environmental power dispatch (*Invited Review*)
R. Petrovic and B. Kralj
12 Production planning for an artists studio – A case study
L.C. Hendry, P. Elings and D. Pegg
21 SIBILLA: An implementation of an intelligent library management system
G. Patrizi
38 A Markov decision algorithm for optimal pest control through uniform catastrophes
E.G. Kyriakidis
45 Analysis of asymmetric patrolling repairman systems
T.K. Das and M.A. Wortman
61 Streamlined computation for data envelopment analysis
A.I. Ali
68 The linear balancing flow problem
G. Andreatta, C. Filippi and G. Romanin-Jacur
83 Determining profit-maximizing production/shipping policies in a one-to-one direct shipping, stochastic demand environment
T.W. Chien
103 Solving large scale generalized assignment problems – An aggregation/disaggregation approach
Å. Hallefjord, K.O. Jörnsten and P. Värbrand
115 An interactive multiobjective nonlinear programming procedure
A. M'silti and P. Tolla
126 A new interactive algorithm for multi-objective linear programming using maximally changeable dominance cone
S.H. Kim and T. Gal
138 On the computational complexity of (Maximum) Shift Class Scheduling
A.W.J. Kolen and L.G. Kroon

Special issue on Project Management and Scheduling

153 Editorial
156 A new lower bound for the job-shop scheduling problem
P. Brucker and B. Jurisch
168 Resource-constrained multi-project scheduling with tardy costs: Comparing myopic, bottleneck, and resource pricing heuristics
S.R. Lawrence and T.E. Morton
188 Scheduling a project to maximize its net present value: An integer programming approach
K.K. Yang, F.B. Talbot and J.H. Patterson
199 Resource allocation via dynamic programming in activity networks
S.E. Elmaghraby
216 The social psychology of project management conflict
R.E. Jones and R.F. Deckro
229 A revised critical path method for networks including both overlap relationships and variable-duration activities
R.C. Leachman and S. Kim
249 The two-machine flow shop problem with arbitrary precedence relations
G.B. McMahon and C.-J. Lim
258 Scheduling with monotonous earliness and tardiness penalties
H.G. Kahlbacher
278 Benchmarks for basic scheduling problems
E. Taillard
286 PERT and crashing revisited: Mathematical generalizations
S. Foldes and F. Soumis
295 Early–tardy cost trade-offs in resource constrained projects with cash flows: An optimization-guided heuristic approach
R. Padman and D.E. Smith-Daniels
312 Hierarchical models for multi-project planning and scheduling
M.G. Speranza and C. Vercellis

0377-2217/93/$06.00 © 1993 – Elsevier Science Publishers B.V. All rights reserved

327 Modelling and Databases (*Invited Review*)
P. Beynon-Davies and A.R. Hutchings
338 Fisheries development planning in Kuwait: An integer programming model
M. Khorshid
354 Economic planning in industrial wastewater systems using O.R. techniques and WODA package
M.M. Teixeira de Araújo
363 Hierarchical mathematical programming for operational planning in a process industry
W.G.M.M. Rutten
370 Optimal file management in a hybrid storage system
T.D. Klastorin, K. Moinzadeh, G. Diehr and B. Han
384 A unified approach to AHP with linking pins
B. Schoner, W.C. Wedley and E.U. Choo
393 Using central prices in the decomposition of linear programs
J.-L. Goffin, A. Haurie, J.-P. Vial and D.L. Zhu
410 Minimising trim loss in cutting rectangular blanks of a single size from a rectangular sheet using orthogonal guillotine cuts
P.K. Agrawal
423 Determining stock-sheet-sizes to minimise trim loss
P.K. Agrawal
432 Modeling vehicle routing with uncertain demands as a stochastic program: Properties of the corresponding solution
M. Dror
442 *n*-Person cooperative games with transferable utility: I. The formation of coalitions
M.A. Ball
449 *n*-Person cooperative games with transferable utility: II. Side-payment distribution and equilibrium coalition trees for indissoluble coalitions
M.A. Ball and L. Xiaoguang
457 The consequences for manufacturers of changes in retail distribution
A. Mercer
462 Call for papers
